

## Getting Started is Easy!

### There are **2** easy ways to enroll with BioScrip:

1. Call **1-877-842-5097** and speak with a BioScrip Patient Care Representative who will confirm your insurance information and arrange to have your prescriptions switched to BioScrip Pharmacy Services.
2. Ask your doctor to call or fax us directly. BioScrip will confirm your prescriptions and insurance information with your physician's office and contact you to arrange delivery of the medications.

Call **1-877-842-5097**

or

Fax **1-877-254-3674**

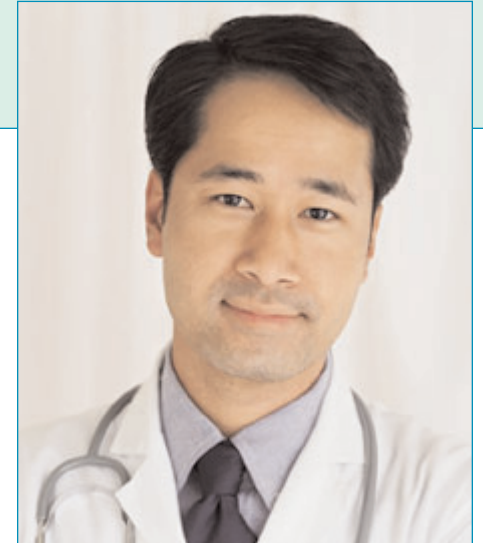

to enroll today - because  
you need more than a  
pharmacy - you need

**BioScrip.**

# Introducing... BioScrip.

## Who is BioScrip?

BioScrip® Pharmacy Services specializes in complex chronic health conditions. Because injectable treatments require special handling techniques, careful administration and a unique ordering process, you shouldn't trust just any pharmacy to supply them. At BioScrip, we understand the challenges that you face with a chronic illness and are equipped to handle the special needs of preparing and delivering your specialty medications. In addition, your BioScrip pharmacist provides comprehensive support, education and monitoring to help you get the most from your treatment. Our staff of pharmacists, nurses and patient representatives are fully trained in your specific illness and therapy. With the support of BioScrip's knowledgeable staff, you can stop worrying about your treatment and focus on being well.

## The benefits:

- Fast, free delivery** of medications to your home or doctor's office;
- No worrying** about whether your drug is in stock. BioScrip maintains a stock of all major specialty medications;
- 1-to-1 **personal** relationships with Patient Care Representatives who coordinate enrollment, billing, refills, insurance verification and renewals;
- Direct access to pharmacists and nurses** for questions about treatment, self-administration or side effects so you get the best outcomes from your therapy;
- Confidential and flexible ordering** options - we'll even contact your doctor directly;
- Educational materials**, newsletters, website content, and other tools to help you stay on track with your treatment;
- Refill reminder calls** to help you remain on your medication.

“They call my doctor for me. I don't have to go pick up the prescription or even remember to call in my refill.”

“The staff is very knowledgeable. They know all about my son's condition & send information and tools to help him stay on track.”

## Who can participate?

If you are taking medications for one of the following chronic diseases, you may be able to receive medications and support through BioScrip Pharmacy Services. To find out, call 1-877-842-5097 with your prescription and insurance information. A BioScrip Patient Care Representative will confirm that you are eligible and begin enrollment during the first call.
