

Step Therapy Program

Step Therapy requires you to have tried a Step 1 medication from the same therapeutic class as the Step 2 medication within the previous 180 days. If your prescription history does not indicate that a Step 1 medication was tried, the Step 2 medication will not be covered. Please note that the Step 2 medications will be covered at the appropriate benefit level once a Step 1 medication has been tried and found to be ineffective.

The chart below lists the medications included in the Step Therapy Program:

Category	Step 1 Medications	Step 2 Medications	Criteria
Allergy-Asthma			
Antihistamine, Inhaled Nasal	Azelastine 137mcg/spray, Azlastine 0.15% NS	Azelastine/Fluticasone NS	Must have tried a Step 1 medication within the last 180 days
