

ABOUT US

- AultValue uniquely integrates three major resources to create a healthcare experience unlike any other.
- **Convenience.** All areas of your employee healthcare experience are wrapped into one. Less confusion. More consistency.
- **Service.** With one point of contact, your client liaison focuses on enhanced care coordination, case management and service availability.
- **Trust.** Our employees, providers and facilities are in your community. You know our name. You know our brand. We are here to lead our communities to improved health.

AULTMAN

**ONE HEALTHCARE SYSTEM.
UNLIMITED VALUE.**

What is the Value to You?

As a participant in all three programs, you and your employees receive the value of wellness. Don't underestimate this value. This underlying component promotes and supports healthy lifestyles for your employees, ultimately saving you healthcare dollars. Companies with 4+ years of wellness can see a 5.54% per employee per month (PEPM) reduction when offering a full wellness program and an incentive program for their employees.¹
