The world is quick to criticize

One day, Albert Einstein wrote the following on the blackboard:

- 9 x 1 = 9
- 9 x 2 = 18
- 9 x 3 = 27
- 9 x 4 = 36
- 9 x 5 = 45
- 9 x 6 = 54
- 9 x 7 = 63
- 9 x 8 = 72
- 9 x 9 = 81
- 9 x 10 = 91

Suddenly, disruption erupted in the classroom because Einstein made a mistake. Obviously, the correct answer to 9 x 10 isn't 91. And all his students ridiculed him.

Einstein waited for everyone to be silent and then said:

"Despite the fact that I analyzed nine problems correctly, no one congratulated me. But when I made one mistake, everyone started laughing. This means that even if a person is successful, society will notice his slightest mistake. So don't let criticism destroy your dreams. The only person who never makes a mistake is someone who does nothing."

When you are criticized, remember the good in you. The criticism is a result of your success!

Please enjoy this video that demonstrates Einstein's message in a very impactful way!
