## 2024

### Premium Managed Formulary 5-Tier

The formulary is designed to provide value. Only specific drugs in each therapeutic class are covered. The formulary design provides adequate options in each therapeutic category and includes most generics and selected brands. Medications not listed on our formulary may not be covered under the plan. Medications not covered on our formulary must meet criteria through an exception process in order to be considered for coverage under plan benefits.

If a non-formulary medication is approved, it will be covered at the Non-Preferred benefit.

Certain medications may be covered under medical, require prior authorization, have step therapy, and/or may have plan limitations. Prior authorization may limit the number of days supply for certain medications. Medications listed under the Vigilant Drug Program are not covered under the plan. These are medications that offer little to no added clinical value over existing, less expensive alternatives that are covered under the formulary. Tier exceptions are not applicable. For example, a higher tier (Non-Preferred) medication may not be requested at a lower tier (Preferred) copay. Please refer to the Pharmacy Summary of Benefits to review copays/coinsurance.

This formulary may not be a complete list of medications that are covered by your plan. If your medication is not listed on the formulary or if you have questions:

- Visit the AultCare website and log on to the OptumRx link to search the drug list tool located under member tools. This will let you search your medication on your formulary.
- You may also contact Customer Service for assistance.

### Premium Managed Formulary (5-Tier Plans)

1 = Preferred Generic drugs (Tier 1)

2 = Preferred Brand and Non-Preferred Generic drugs (Tier 2)

3 = Non-Preferred Brand and Non-Preferred Generic drugs (Tier 3)

4 = Specialty Generic drugs (Tier 4)

5 = Specialty Brand drugs (Tier 5)

E = Excluded drugs

Certain classes may be listed on the formulary, but not covered, due to plan language.
